Amendments to the Claims:

This listing of claims will replace all prior versions and listings of claims in the application.

Listing of Claims:

1-24. (previously canceled)

25. (previously presented)   An interactive system for building, organizing, and sharing one's own databank of questions and answers in a variety of questioning formats, on any subject, in one or more languages, using a computer system, comprising of:

    (a)   a User Interface;

    (b)   one or more well-classified databases to store data user wise including a User Database;

    (c)   at least one well classified data input, organizing and management module;

    (d)   modules for sharing, invoking, storing, evaluating, and improving one's knowledge on any subject, using the data from the databank, said data having been selected by a user by finding the same by none or one or more "FIND" conditions; and

    (e)   a control system acting as a bridge between the User Interface and the databases.

26. (currently amended)   The system according to claim 25 wherein said data input organizing and management module allows the user to classify the data by Classifications ~~like~~including but not limited to Date, Language, Source of Information, Age Group, Difficulty Level, Subject and Sub subjects.

27. (previously presented)   The system according to claim 25 wherein the modules include a Question Bank--Rapid Entry Module for allowing the user to build questions and answers rapidly by minimum classifications.

28. (currently amended)   The system according to claim 27 wherein said Question Bank--
Rapid Entry Module allows the user to classify the data by classifications ~~like~~including
but not limited to Date, Language, Source of Information, Age Group, Difficulty Level,
Subject and Sub subjects.

29. (previously presented)   The system according to claim 25 wherein the modules include
a Comprehension Bank Module for allowing the user to build and share a databank of
passages by well-defined classifications, and further questions and answers based on said
passages in various questioning formats, such that the user acquires an improved
comprehension of said passages.

30. (currently amended)   The system according to claim 29 wherein said Comprehension
Bank Module allows the user to classify the data by well-defined classifications
~~like~~including but not limited to Date, Language, Source of Information, Age Group,
Difficulty Level, Subject and Sub subjects.

31. (previously presented)   The system according to claim 29 wherein said Comprehension
Bank Module allows the user to export the questions and answers based on the passages to
the data input organizing and management module by finding the same from the databank
by none or one or more FIND conditions.

32. (previously presented)   The system according to claim 25 wherein the modules include
a Practice Session Module for allowing the user to invoke and store a practice session for
continuous improvement of one's knowledge on any subject, using the data from the
databank by finding the same by none or one or more "FIND" conditions.

33. (previously presented)   The system according to claim 25 wherein the modules include
a Self Evaluation Test Module, Print a Test Module, Individual Test Report Module, and
an Overall Evaluation Report Module for allowing the user to invoke and store self
evaluation tests, being taken in a variety of test formats using the data from the databank,
by finding the same by none or one or more "FIND" conditions, and to print such Tests,
and obtaining evaluation reports of said tests.

34. (previously presented)   The system according to claim 33 where the Self Evaluation
Test Module includes a utility for viewing a replay of a self evaluation test along with the
user's actions performed during the self evaluation test and to obtain reports of such
replays.

35. (currently amended)   The system according to claim 25 wherein the modules include
a Create a ~~Test/Quiz~~ Test or Quiz Module and an Insta ~~Test/Quiz~~ Test or Quiz Module for
allowing the user to create tests ~~and/~~or quizzes manually or automatically and print the
said tests ~~and/~~or quizzes by various classifications ~~like~~including but not limited to the
Date of ~~test/quiz~~test or quiz, Venue, Name of ~~test/quiz~~test or quiz, Categories and Sub-
categories, and further allowing the user to assign marks to each question, using the data
from the databank, by finding the same, by none or one or more "FIND" conditions.

36. (currently amended)   The system according to claim 35 wherein the Create a
~~Test/Quiz~~ Test or Quiz Module enables verifying, using a backtracking utility, whether
any of the questions being selected for the ~~test/quiz~~test or quiz, have been used during any
user specified earlier period for the person(s) who will face the ~~test/quiz~~test or quiz, thus
avoiding duplication of questions.

37. (previously presented)   The system according to claim 25 wherein the modules include
a Scheduler Module for allowing the user to schedule data by finding the same, from the
databank, by none or one or more "FIND" conditions, and said data is brought up on the
user's computer system at preset time intervals.

38. (previously presented)   The system according to claim 25 wherein the modules include
an Export Module for allowing the user to export data from the databank, said data having
been selected by the user by finding the same by none or one or more "FIND" conditions.

39. (previously presented)   The system according to claim 25 wherein the modules include
an Import Module for allowing the user to import data built by one or more other users.

40. (previously presented)   The system according to claim 39 wherein the Import Module
    further includes a utility for selectively importing the data.

41. (currently amended)   The system according to claim 25 wherein the modules include
    a Global Changes Module for allowing the user to modify records, delete records,
    bookmark records, ~~mark records as "Set for Practice" or "Mastered", "Public" or~~
    ~~"Private", and "Favourite", attach image, animation and/or sound files, and/or associate~~
    ~~more information to a record in the form of URLs, files, remarks,~~ translate records, attach
    image, animation ~~and/~~or sound files, ~~and/~~or combinations thereof to a record, associate
    more information to a record in the form of URLs, files, remarks, or mark records as "Set
    for Practice" or "Mastered", "Public" or "Private", and "Favourite", individually as well as
    globally.

42. (previously presented)   The system according to claim 25 wherein said data input
    organizing and management module further includes a utility for copying of existing
    classification and previously entered data, for new data input by the user, for ease of data
    entry, with a choice of defining the extent of the details to be copied.

43. (previously presented)   The system according to claim 25 wherein the modules include
    a Recycle Bin Module for allowing the user to restore or permanently remove a record
    individually or plurally from the system.

44. (currently amended)   The system according to claim 25 wherein the modules include
    a Reports Module for allowing a user to print reports ~~and/~~or graphs or combinations
    thereof about the data in the databank, by finding the same by none or one or more FIND
    conditions.

45. (currently amended)   The system according to claim 25 wherein the "FIND" conditions are defined by classifications ~~like~~including but not limited to Date, Record ID, Language, Source of Information, Age Group, Difficulty Level, Subject, Sub Subjects, ~~Test/Quiz~~ Test or Quiz Title, ~~Test/Quiz~~ Test or Quiz Venue, Category and Sub Categories as well as by keywords, separators, wildcard characters, file attachments, attachment remarks, associations, association remarks, import remarks, or bookmark remarks including whether or not a record is marked as "Set for Practice" or "Mastered" or either, "Private" or "Public" or either, as well as "Favourite", Practice Session Title, ~~Test/Quiz~~ Test or Quiz Title, ~~Test/Quiz~~ Test or Quiz Venue, Category and Sub categories.

46. (currently amended)   The system according to claim 45, wherein the "FIND" conditions allow the user to avoid questions that may have been faced by the user in a self evaluation test before a specified number of days ~~and/~~or for a specified number of times ~~and/~~or based on a score or combinations thereof that the user achieved on the questions in a self evaluation test during a specified period of time

47. (previously presented)   The system according to claim 25 wherein the modules include a Translation Module for allowing translation of a record from one language into another of user's choice, individually or globally.

48. (previously presented)   The system according to claim 25 wherein the modules include a Tools/Help Menu Options Module for allowing the user to select an option for customization including system maintenance and updating of database.

49. (previously presented)   The system according to claim 25 wherein the modules include a Master Module for allowing the user to create and store masters for well-defined classifications.

50. (previously presented)   The system according to claim 25 wherein the modules include a Screen Saver Module for allowing the user to display the data in the databank as screen savers.

51. (previously presented)   The system according to claim 25 further includes a utility
which allows the user to print flash cards, snap cards, and worksheets from the data in the
databank.

52. (currently amended)   The system according to claim 25 wherein the modules and
utilities are adapted to be operated within a browser ~~and/~~or other viewing ~~and/~~or
processing programs and to operate on one or more computers, including hand held
devices.
